PROFILE

I love creating beautiful, responsive websites & engaging in complex problem-solving along the way. I'm looking for opportunities at a progressive company where best practices are valued & professional development is encouraged.

When I'm not coding, you can find me learning how to knit for the third time, reading the latest fantasy novel, & trying to be among piney trees as often as possible.

EXPERIENCE

WORKSHOP MENTOR
LADIES LEARNING CODE | MAY 2017 - ONGOING

- Assist instructors to teach children and adults beginner and intermediate Scratch, HTML & CSS

PRODUCTION COORDINATOR
HOUSE OF ANANSI PRESS | NOV 2015 - APR 2017

- Managed all print books and ensured on-time delivery and budgeted printing costs while keeping with the quality and specifications expected
  - Kept all employees and printers up-to-date on any changes or delays to schedules
- Responsible for ebook creation & QA, typesetting, digital asset management & database maintenance
- Researched current e-production technologies and practices through self-taught learning and conferences
